Noreen,

Yes, to confirm, we are asking for all releasable documents, as requested in our April 21, 2016 letter, from 1941 to present.

We would like redacted documents.

We would like responsive documents from boxes in the Federal Records Center as well.

Thank you,  
Christy

Christine:

I just wanted to make sure, are you asking for all releasable documents that we have from 1941 to present?

Also there might be some documents that need to be redacted for personnel identifiable information, such as residents names, addresses and phone numbers, are you ok with redacted documents?

There is a box in the Federal Records Center (which is not here in the building) that will cost \$21.75 to retrieve, send back and shipping costs, did you want this box?

Please respond back, thank you.

Noreen,

Thank you for your email. To confirm, we would like records from all three Divisions that you name.

The link you provide below, to documents provided previously for a prior FOIA request, does not contain all of the documents we are looking for. Please do not put our request on hold. Please continue to work on our request and let me know if you have any further questions.

Thank you for your assistance with this.  
Christy

Christine:

Your request was assigned to the Water Division, Land and Chemicals Division and the Superfund Division, if you don't want information from any of these Divisions, please let me know. There was a prior FOIA done with a moderately sized release in FOIA Online at the link below, let me know if these documents are what you are looking for, otherwise I will continue to work on this if you want SFD to respond. I will put this request on hold until I hear back from you.

Thank you.
